

If you watch or listen to a webinar recording you can claim continuing professional development, as a self-directed learning activity from your college.

Complete and retain this form to help keep a record of your participation in the activity.

Webinar details

Webinar title	Primary Care, Older Persons and Mental Health
Duration	75 minutes
Predisposing activity time allocation	30 minutes (includes reading case study prior to watching or listening to the recording)
Learning objectives •	Describe the complex relationship and interplay between ageing related issues including but not limited to mental and physical health, grief, loss and social isolation Describe the challenges, merits and opportunities in evidence-based approaches deemed most effective in treating and supporting older people with mental and/or, physical health and/or psychosocial issues. Better target referrals, as a result of improved understanding of the role of different disciplines, for older people with mental and physical health and/or psychosocial issues.
