Mental Health Professionals' Network

## Adelaide Diabetes & Mental Health Network Meeting

The Mental Health Professionals' Network ([MHPN](#)) is a unique initiative targeted at improving interdisciplinary mental health practice and collaborative care by supporting locally based networks of primary care and mental health practitioners throughout Australia.

The purpose of this network is to provide a platform for interdisciplinary professional development, peer support, enhancing referral pathways, and gaining an understanding of how services and practitioners can work together to meet the mental health and related needs of the local population living with Diabetes.

You are invited to the next network meeting.

**Monday, 19 November 2018**

*Presenter, agenda and registration details over page*

## GUEST SPEAKERS:

**Scott Clark** is the CALHN Clinical Academic and Senior lecturer for the University of Adelaide Discipline of Psychiatry and Deputy Head of Discipline. He co-coordinates the Adelaide Medical School's Psychiatry program and is a consultant psychiatrist in the Western Community Mental Health Service. Scott is the former Chair of the South Australian Clozapine Steering Group and led the introduction of a [state-wide monitoring system for the use of the high risk antipsychotic clozapine](#). Scott's research focuses on the use of biomarkers and biotypes in the prediction of medication response and outcomes in psychosis and mood disorders. Scott was awarded the Royal Australian and New Zealand College of Psychiatrists Early Career Psychiatrist Award 2017 for his work on the [use of simple Bayesian models to combine multimodal clinical and biological data to predict the first psychotic episode](#).
